

HAPPY CAMPERS CHILDREN CENTER

OUR PHILOSOPHY

Our center philosophy is to provide adequate child care services based on the needs of your child, the family, the community and our ability to meet those needs. Our program consists of a balanced schedule of daily activities providing opportunities for the individual development of the child's self-image, self-control and independence; expression through creativity; social skills through group activities; intellect through a balance of teacher directed activities; thoughtful and courteous behavior; gross motor skills and manual dexterity; good health and hygiene habits; respect for others and property.

ENROLLMENT

We welcome any child 6.0 weeks through 5.0 years of age, with a pre-admission Physical Examination, T.B. clearance and appropriate Immunizations. If at any time after enrollment we find he/she is not benefiting from a group situation, the parents will be asked for a conference.

- Qualified teachers
- Large campus
- Healthy and safe environment
- Caring professionals
- Nutritional menu
